[The 10th Anniversary of the Internal Market Information System](#)

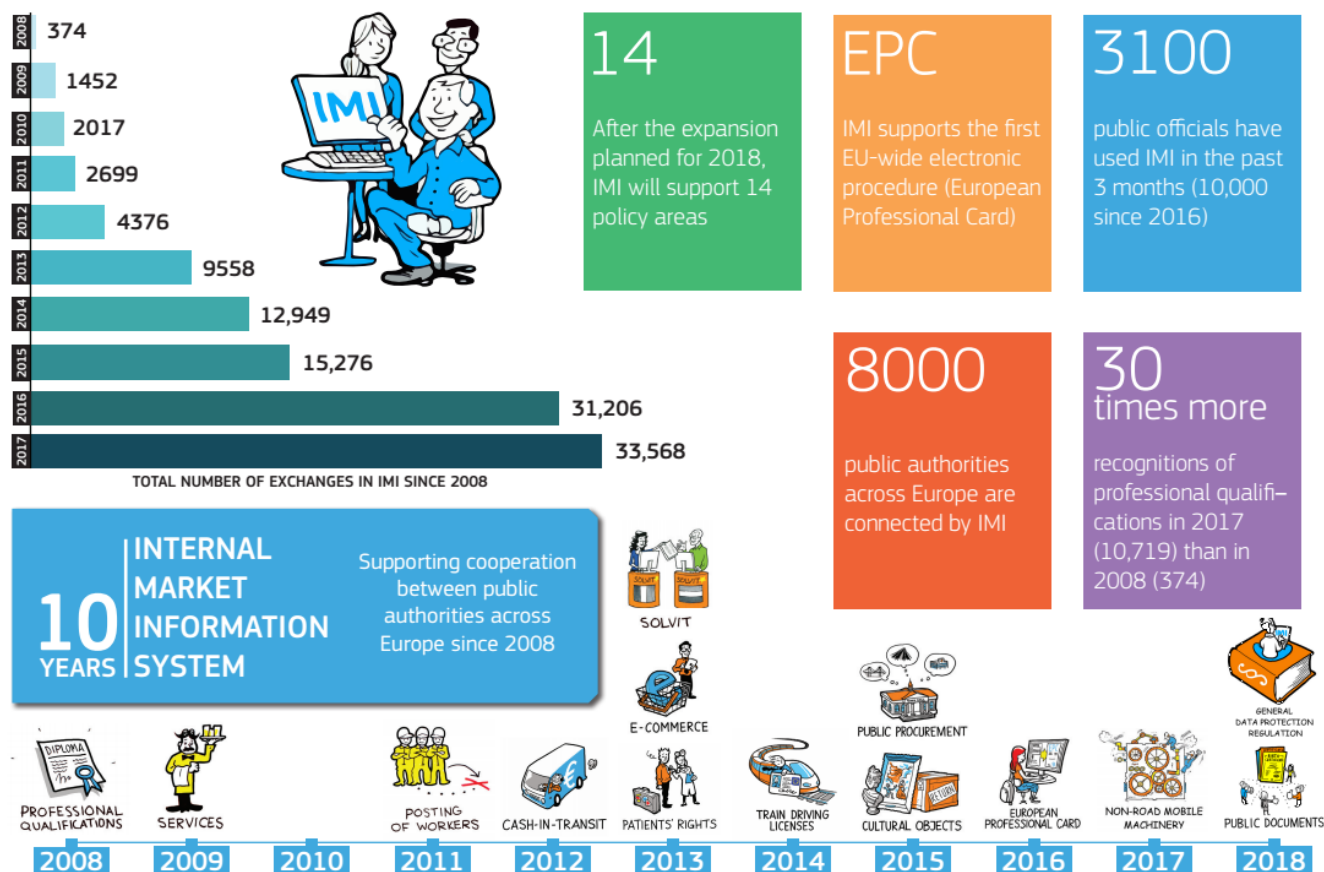

10 YEARS | INTERNAL MARKET INFORMATION SYSTEM

In recognition of the involvement and contribution to the successful operation of the Internal Market Information System (IMI), which connects authorities across Europe, the European Commission has awarded CNRED with a *Certificate of appreciation* at the IMI anniversary, an event organized on April 10th in Brussels.

The [Internal Market Information System \(IMI\)](#), created by the European Commission, supports cooperation between public authorities across Europe since 2008. In the process of information exchange, IMI national coordinators support public authorities, which has generated more than 110,000 exchanges of information through IMI over the past 10 years, but also a significant simplification of procedures for tens of thousands of citizens and businesses on the Single European Market.
