[Study visit of the representatives of the Center for Information and Communication Technologies in Education from the Republic of Moldova to CNRED](#)

During April 23-24, CNRED received the visit of a delegation from the Center for Information and Communication Technologies in Education (CTICE) from the Republic of Moldova. This meeting is part of the series of documentary visits initiated last year for the exchange of best practices and has been aimed at deepening the mechanisms for authenticating study documents for citizens traveling abroad, as well as procedures for the recognition and equivalence of diplomas obtained abroad.

The exchange of experience contributes to the consolidation of the Romania - Republic of Moldova bilateral relationship in the field of education, legitimated by the Agreement between the Government of Romania and the Government of the Republic of Moldova on the mutual recognition of the diplomas, certificates and scientific titles granted by accredited institutions in Romania and Moldova (1998), followed by a protocol to amend the Agreement (2010).
