[The fourth training session organized by CNRED for IMI users](#)

Between October 23 and 25, 2019, CNRED organized at the University "Politehnica" of Bucharest a new training session for the authorities registered in the [Internal Market Information System \(IMI\)](#) and in the [European Commission Database with regulated professions \(RegProf\)](#).

CNRED representatives provided training for Higher Education Institutions, County School Inspectorates, County Payments and Social Inspection agencies, County Employment Agencies, County Public Health Directorates and Competent Authorities for regulated professions.

The IMI users designated by these institutions received information regarding the use of the modules of the IMI System for the recognition of professional qualifications (information requests, electronic registers, notifications, alerts regarding falsified diplomas and professional sanctions).

During these days, the participants also received training regarding the [European Commission Database with regulated professions](#) (RegProf), the [Single Digital Gateway](#) and the [Electronic Point of Single Contact](#), electronic tools developed by the European Commission to facilitate the recognition of professional qualifications.
