

## OCTRA 2 - Online course catalogues and databases for transparency and recognition 2

## EQUAL: European Qualifications - Refugees and Recognition 4

The EQUAL project will build on experiences from previous projects - [Toolkit](#), [REACT](#) and [ARENA](#) - to further ensure the implementation of Article VII of the Lisbon Recognition Convention. The project will support NARIC Centers in establishing sustainable recognition procedures that comply with national admissions legislation and practices. Through local needs assessment, structured training and mentoring, the project will contribute to building the capacity of recognition authorities in the new countries which joined the project – Poland, Lithuania and Romania.

## **ARAQUA – Road to Automatic Recognition of Higher Education Access Qualifications**

The aim of the ARAQUA project is to explore and map, at the level of the partner countries, the qualifications that allow access to higher education in order to develop a set of recommendations for ENIC-NARIC centers and for higher education institutions to facilitate the automatic recognition of these qualifications between states. The project also aims at mapping the qualifications that allow access to higher education to identify the minimum requirements, to promote discussions between ENIC-NARIC centers, higher education institutions and national authorities regarding the procedures and criteria for automatic recognition.

## **DEQAR CONNECT - Enhancing the Coverage and Connectivity of QA in the EHEA through DEQAR**

Focused on two of the key commitments of the European Higher Education Area (EHEA) - supporting quality assurance and recognition within the EHEA -, the DEQAR CONNECT project consists of two actions: expanding the involvement of quality assurance agencies in higher education in the EHEA, which are currently underrepresented in the DEQAR database; improving connectivity by exploring new opportunities to use DEQAR data directly in the workflow of recognition, digital credentialing, etc.

Through this project, CNRED launched the web platform [CNRED.DEQAR.link](https://cnred.deqar.link/) - <https://cnred.deqar.link/>, which provides access to the DEQAR database containing relevant information on higher education institutions and accredited study programs in over 80 countries.

## EQPR - European Qualifications Passport for Refugees

# COUNCIL OF EUROPE

# CONSEIL DE L'EUROPE

“European Passport of Qualifications for Refugees” - EQPR provides information on academic training, work experience and language skills. These may be relevant if the refugee wants to get a job, do a traineeship, a qualification course or enroll in a university. This information is accepted in any European country. EQPR is a tool that facilitates the recognition of refugees' qualifications even in the absence of their full documentation, based on a transparent and credible assessment, and is used by refugees to pursue further education or to look for a job.

**TPG-LRC - Thematic Peer Group on the implementation of the Lisbon Recognition Convention in EHEA countries**

# EUROPEAN Higher Education Area

The objective of the TPG-LRC project is to contribute to the full implementation of the Lisbon Recognition Convention in the countries of the European Higher Education Area that are part of Thematic Group B (TPG B - Thematic Group B of the Lisbon Recognition Convention), one of the three groups created to strengthen the implementation of the 3 fundamental commitments for the achievement of the Bologna Process in the period 2018-2020, 2021-2024. Following a peer support approach, the project encourages the exchange of knowledge and best practices among TPG B members, focusing on the implementation of the key principles of the Lisbon Recognition Convention.

## E.T.I.C. - Inclusive and quality early education

The project is carried out between August 2019 and June 2023 and is co-financed from the European Social Fund

---

through the Human Capital Operational Program 2014–2020, thematic objective: 10. Investments in education, training and vocational training for skills and lifelong learning, Priority Axis 6: Education and skills, Investment priority: 10i. Reducing and preventing early school leaving and promoting equal access to participation in quality early childhood education, primary education and secondary education, including through formal, non-formal and informal pathways for reintegration into education and training, SMIS Code 2014+: 128215.

The general objective is to develop an operational framework in the field of pre-school education at national level in order to facilitate access to education for children in nurseries and/or kindergartens. The specific objectives are the development and promotion of the institutional and curricular framework to ensure the increase in the participation of preschool children in early education services, respectively the provision of specialized and qualified human resources for the education and care of preschool children, by designing and running continuous training programs adapted to the needs of different categories of teaching staff involved in early childhood education and care.

Beneficiary and partners: Ministry of Education, CNRED, "Aurel Vlaicu" University of Arad, University of Pitesti, "Ștefan cel Mare" University of Suceava.

## IMI PQ Net România - The Network of Competent Authorities for Professional Qualifications in Romania

The IMI PQ Net Romania project was carried out between November 2010 and February 2014 and was co-financed from the European Social Fund through the Sectoral Operational Program Human Resources Development 2007 – 2013 within priority axis 3 “Increasing adaptability of workers and enterprises”, major area of intervention 3.3 “Developing partnerships and encouraging initiatives of social partners and civil society”, ID 53132.

The project pursued the creation and implementation at national level of the European Commission's initiative regarding the development of the Internal Market Information System (IMI), by strengthening the network of social partners. The network includes both the competent Romanian authorities mentioned in Law no. 200/2004 regarding the recognition of diplomas and professional qualifications for regulated professions in Romania, with subsequent amendments and additions, as well as other potential competent authorities. The competent authorities are responsible for the professional recognition of the qualifications acquired in the member states of the European Union, of the European Economic Area and in the Swiss Confederation by the citizens of these states who wish to exercise a regulated profession in Romania.

Partners and beneficiaries: CNRED within the Ministry of Education in partnership with the National Qualifications Authority, the Institute for Social Policies and the competent authorities for regulated professions.

**National network of centers for the development of study programs with flexible routes and some didactic tools for the undergraduate and master's specialization, in the field of Systems Engineering**

The project was carried out between July 2010 and November 2013 and was co-financed from the European Social Fund through the Sectoral Operational Program Human Resources Development 2007 – 2013, Priority axis 1: “Education and professional training in support of economic growth and development of the knowledge-based society”, major field of intervention 1.2 “Quality in higher education”, ID 63806.

The general objective of the project was to provide quality and high-performance higher education, in the fundamental field of study "Systems Engineering"-IS, in order to consolidate a structured and flexible thinking, improve learning results at the system level, acquire knowledge and skills adapted to the requirements of the labor market, by restructuring the contents of study programs in the field, and by making economic factors aware of the usefulness of supporting the insertion of these graduates into the labor market.

Partners and beneficiaries: CNRED within the Ministry of Education, Research and Innovation, Polytechnic University of Bucharest, Technical University of Cluj-Napoca, Technical University “Ghe. Asachi” from Iasi, Polytechnic University of Timișoara, SC Asti Automation SRL, Technical University of Constructions Bucharest.

## **Correct information - the key to the recognition of studies**

The project was carried out between November 2008 and October 2011 and was co-financed from the European Social Fund, through the Sectoral Operational Program Human Resources Development 2007 – 2013, within the call for proposals for strategic projects POS HRD "University for the future", ID 2789.

The project sought to develop a *unitary and transparent methodology to enable universities to recognize study periods carried out abroad* at a time when academic mobility was in a growing process.

The specific objectives of the project aimed at creating a Network of Resource Centers for Information and Documentation (CRID) in every accredited university in Romania; training the staff of the Resource Centers; adapting the recognition methodology to internal and international norms and increasing its transparency; simplifying the registration procedure for continuing studies at accredited universities in Romania for Romanian, EU or third-country citizens who studied abroad (partial or full internships).

Following the activities carried out within the project, the Order of the Minister of Education, Research, Youth and Sports no. 3223/February 8, 2012 for the approval of the Methodology for the recognition of study periods conducted abroad was adopted.

Partners and beneficiaries: CNRED within the Ministry of Education, Research, Youth and Sport, together with higher education institutions in Romania.
